

MEZZANINE SYSTEMS

**CANOPIES KEEP EXTERNAL STORAGE AND OUTDOOR ACTIVITIES PROTECTED**

MiTek canopies are professionally-engineered with high-quality materials to withstand snow and wind load and protect against the damaging effects of sun and rain. Our team creates safe, reliable, and durable designs that meet code compliance.

**KEY BENEFITS**

- PE-stamped design
- For all seismic zones
- Maximize steel efficiency while supporting loads
- Fast and efficient compared to traditional construction projects
- Manufactured in our purpose-built fabrication plant, providing a cost savings to you
- Quality and longevity of structural components are guaranteed by a limited warranty

**MEZZANINE SYSTEMS | CANOPIES****FEATURES**

- Heavy-duty square tubing columns for greater strength.
- Cold-formed C-Channel framing for greater strength per pound.
- Superior powder coat finish with 8 standard colors and custom options.
- Galvanize or add a zinc primer to increase rust resistance for external applications.
- Built to withstand harsh weather conditions.

**Common Applications:** material storage, external staircase, waste bin areas, carports, recreational equipment, employee shelters, sports dugouts, bleachers, concession stands, seasonal items
